CLOUD BASED INTEGRATION

WORXSITEHR's mobile Point-of-Sale (mPOS) solution is cloud-based, offering users remote access so they can always feel the pulse of their operation, regardless of physical location. WORXSITEHR POS is accessible from anywhere at anytime. The iPad POS solution is seamlessly integrated with our digital menu tablets, allowing direct communication between our menus and your hotel, store, or restaurant's digital interface. Orders go directly into the POS system which means fewer mistakes and more money saved on labor cost. WORXSITEHR POS is also designed for integration with WorXsiteHR's proprietary ERP system - HRX, for seamless accounting, scheduling, and inventory management.

FULL CONTROL OVER MENU SETUP

Change item prices, names and descriptions. Create new items with images, aliases, specific tax and printer settings. Change item prices, names and descriptions. Create new items with images, aliases, specific tax and printer settings.

BUILT FOR SIMPLICITY

The intuitive order and payment flow makes POS transactions a snap and lets you effortlessly manage customers and your entire business. Get real-time sales reports by item or vendor type, and search refunds, discounts, and comps. Filter reports by employee, location, and POS device.

MANAGE YOUR INVENTORY

Don't ever have to say 'Sorry, we're out of...' Learn what your best sellers are and what you need to restock. WORXSITEHR updates are inventoried with every transaction so you don't have to do it manually. Keep track of customers' purchase histories automatically, send digital receipts, and collect instant feedback to improve your service.

* Early Termination Fee? We'll pay it for you!
